Behaviour, expectations and DARE points

Children are expected to follow our DARE values. Assemblies and class discussions ensure children know exactly what this looks like.

Children are rewarded DARE points for showing our values. These points add up to individual, whole class and house awards.

Individual points:

- 10 points = A sticker
- 25 points = Smelly sticker
- 35 points = Rubber
- 50 points = Pencil
- 65 points = Ruler
- 80 points = Bronze Certificate
- 100 points = Silver Certificate
- 120 points = Gold Certificate
- 160 points = Platinum Certificate
- 200 points = Golden Ticket

Whole Class points:

- 1000 points = A whole class fun activity
- 2000 points = A whole class movie afternoon
- 3000 points = Whole class special day

Snack, lunch and uniform

- The uniform policy is on the website
- We cannot stress this enough - please label EVERYTHING!
- Keep snacks to fruit and vegetable
- Water only in drinks bottles, if this is an issue for your child - please talk to one of us

- Some are taught every week and some are alternated each half term.

Maths - calculation methods in Year 5

Skill: Add with up to 3 decimal places **Year: 5**

Place value counters and plain counters on a place value grid are the most effective manipulatives when adding decimals with 1, 2 and then 3 decimal places.

Ensure children have experience of adding decimals with a variety of decimal places. This includes putting this into context when adding money and other measures.

$$3.65 + 2.41 = 6.06$$

Skill: Multiply 4-digit numbers by 2-digit numbers **Year: 5/6**

When multiplying 4-digits by 2-digits, children should be confident in the written method.

If they are still struggling with times tables, provide multiplication grids to support when they are focusing on the use of the method.

Consider where exchanged digits are placed and make sure this is consistent.

$$2,739 \times 28 = 76,692$$

Skill: Subtract numbers with more than 4 digits **Year: 5/6**

Place value counters or plain counters on a place value grid are the most effective concrete resource when subtracting numbers with more than 4 digits.

At this stage, children should be encouraged to work in the abstract, using column method to subtract larger numbers efficiently.

$$294,382 - 182,501 = 111,881$$

Skill: Divide 4-digits by 1-digit (grouping) **Year: 5**

Place value counters or plain counters can be used on a place value grid to support children to divide 4-digits by 1-digit. Children can also draw their own counters and group them through a more pictorial method.

Children should be encouraged to move away from the concrete and pictorial when dividing numbers with multiple exchanges.

$$8,532 \div 2 = 4,266$$

What books are Year 5 reading?

Reading passport books are kept in the library and can be changed on a weekly basis if finished, or if your child is really not enjoying the book.

A digital reading record

Never forgotten

You child's Reading diary will never be left at home on the busy school run!

Never lost

No damaged or ruined reading diaries - and of course the valuable information is never lost!

Always available

Every parent or carer can access the diary at any time. No more asking: 'Has anyone seen the diary?'

Always available

It's easy to see all reading for your children in one place - no more searching for separate diaries.

So, what happens next

You will be sent a parent app quick start guide.
